

## HGS Claims Benefits Management

### Driving Transformation with Reductions in Denials and Turnaround Time

In the post-reform marketplace, healthcare payers are focused on gaining efficiencies by improving claims accuracy, reducing turnaround times, and more efficiently managing processing. Claims operations leadership struggles to effectively transform operations to perform at the highest level of compliance and quality standards while also focusing on cost-containment. As the ACA continues to take effect, these particular challenges and opportunities will be more prevalent.

HGS can provide payers the required support—employing our more than 15 years of payer experience and proven success in member/provider services, back-office processes, and sales capabilities. At HGS, we pride ourselves in working closely with our payer clients to enhance their competitive position, improve client satisfaction, facilitate communication across multiple channels, and deliver positive and sustainable results.

#### HGS Capabilities

**Our claims administration services comprise adjudication, research, and overpayment recovery and denial management. These solutions include:**

- Interface with clients' auto adjudication to effectively provide manual adjudication by industry professionals with experience in re-pricing/network review, edit resolution, and pre-paid and other audits
- Review of any flagged historical claims for accuracy and investigation of claims for potential overpayments
- Scanning of fulfillment services documents
- Claims re-pricing focuses on claims adjustments when working with non-par or out-of-network providers
- Financial recovery, processing of claims overpayments
- Researching of claims for medical appropriateness

**Along with our Claims Benefits Management Operations, HGS also provides extensive Clinical Operations, Benefit Configuration, Enrollment, and Fulfillment processes among other services.**

“The ACA has spurred activity in both the public and private sectors, contributing to the accelerated pace of state and local innovations across the country. There is widespread agreement that fee-for-service health care should no longer be the norm, and that fundamental shifts are needed to produce affordable, high-quality, value-based care.”
